

# Fabrication/Mechanical Engineering

Philford can provide solutions to any type of fabrication requirements. Although we specialise in materials handling we have extensive fabrication experience in many other fields. Whatever your fabrication needs, large or small, our experience and expertise will meet your expectations.

- Philford mechanical engineering staff have the experience to deal with most mechanical plant
- We repair, overhaul and remanufacture a large range of gearboxes from many different applications. We will visit sites to dismantle and install or to assess repairs needed
- Our diverse experience has made Philford adept at providing solutions to most mechanical problems
